## COURT & GYM

# EXPRESS

### WATERBORNE FINISH

**PoloPlaz Express** is a commercial grade, 2 component, clear waterborne polyurethane finish. It was designed for use in gymnasiums, restaurants, museums, offices, and all multipurpose facilities with high volumes of foot traffic. Its proprietary formula for exceptional adhesion and resistance to abrasion exceeds MFMA standards. Express features excellent flow without streaking or bubbling, and a longer wet edge to reduce lap marks. It is virtually odorless, V.O.C. compliant, and less expensive than other waterbornes in its class.

## EXCELLENT BUILD

## EXCELLENT ADHESION

## EXCELLENT VALUE

Coverage.....	500 sf/gal
Solids .....	31%
Flash Point.....	NA
Dry Time for Recoating .....	4-6 hrs.
Cure Time for Resuming Play .....	3 days
Pencil Hardness @ 7 days .....	3H
Open Time (Wet Edge) .....	12 mins.
V.O.C.....	260 g/L
Solvent.....	Water, glycol ethers
Shelf Life .....	1 year unopened
Available in .. 5 gal pails (catalyst included)
